

EMG PREFERRED AUTHORIZED REPAIR CENTER

EMG ELDRO® and ELHY® THRUSTER AUTHORIZED REPAIR

ONE CALL DOES IT ALL

PREFERRED AUTHORIZED
REPAIR SERVICE

Keep your ELDRO® and ELHY® brake thrusters up and running at peak performance levels with Magnetek's Preferred Authorized repair services.

REPAIR SERVICES

Our technicians are factory trained to refurbish and repair your ELDRO and ELHY thrusters using only genuine EMG parts to ensure brake thrusters are operating safely and efficiently.

Services include:

- Seal and Bearing Assessment
- Hydraulic Fluid Replacement
- Performance Testing Meeting or Exceeding EMG's Specifications
- Motor Evaluation & Testing

FEATURES

- Repairs made with only Original Equipment Manufacturer (OEM) parts provided by EMG Automation GmbH
- Magnetek uses only EMG thrusters on Mondel brakes, and spare parts are stocked at our facility for fast repair turn-around

BENEFITS

- One-year warranty on all parts and repairs
- Short repair lead time reduces your equipment downtime
- 24/7 Access to factory trained technicians

**FIX IT FAST
FIX IT RIGHT!**

The use of OEM parts for all maintenance and repair ensures the integrity and durability of the work conducted. This reduces long-term maintenance costs and extends the life-cycle of the product. EMG's electrohydraulic thrusters are used in crane applications to ensure the safety of people and machines during braking procedures, emergencies, or power failures. Proper maintenance and repairs are critical to keeping your equipment operating efficiently and safely.
